

Job/Position Summary

The KAUST School (TKS) aims to serve the KAUST community of students by providing The International Baccalaureate (IB) programs of education in a holistic school environment. The TKS Teacher will help achieve the TKS goals by providing professional classroom instruction at either the elementary, middle and/or high school level and may teach one or more academic subjects or special areas ensuring that all students receive a superior educational program. The TKS teacher applies IB educational philosophy; with the content, scope and requirements of the subjects taught and using instructional materials. The aim is to achieve a stimulating learning environment that is aligned with the school's mission, vision and culture.

Major Responsibilities

- Perform daily classroom teaching activities and engage in purposeful planning
- Define classroom achievement goals, practice technology-infused instruction, and plan individualized courses of study for students
- Work in cooperation with other teachers, curriculum coordinators, administrators and other school personnel
- Evaluate student progress using research-based formative and summative assessment practices on a regular basis
- Ability to work enthusiastically and supportively with students
- Communicate students' progress to parents and engage them in their children's learning
- Recommend and implement remedial or enrichment activities
- Participate in co-and/or extra- curricular school activities
- Assist in the design and review of curriculum, in cooperation with educational specialists, curriculum coordinators, school administration and peers
- Awareness of specific learning profiles to adapt curriculum design, implement, evaluate and record support interventions
- Pursue continuous learning and professional growth
- Present a positive image by modeling the school's values and culture
- Experience working in multi-cultural environments and demonstrating intercultural understanding

Competencies

- Possess and apply professional knowledge and understanding of content, instructional strategies and student development
- Design instruction consistent with The KAUST School curriculum
- Use TKS available technology to support student learning
- Collaborate with colleagues to enrich instruction and professional practice
- Differentiate instruction to ensure individual student needs are being met
- Use reliable data from multiple sources to inform one's professional practice

Qualifications

- Minimum two years of International Baccalaureate (IB) teaching experience in subject/area applying for
- Teaching degree and certification, or equivalent in subject/area applying for and minimum Bachelor's degree
- Experience and training in PYP/MYP/DP
- International school teaching experience is preferred
- Excellent references
- Excellent command of oral and written English Language
- English as a Second Language training and experience is preferred
